REMARKS

The above-referenced patent application has been reviewed in light of the Petition Decision mailed on September 28, 2006, which dismissed a request to accept a delayed priority claim because one or the referenced applications did not include a common inventor. As discussed in the Renewed Petition accompanying this amendment, Assignee made a typographical error in identifying an application serial number of a related application. The above amendment corrects this error.

As this amendment is not within the time frame specified by 37 CFR 1.78, this amendment is accompanied by a petition as required by 37 CFR 1.178(a)(3) stating that entire delay was unintentional along with the fee required by 37 CFR 1.17(t).
